

TCM Forklift Part

TCM Forklift Parts - In the international trade of material handling, lift trucks play an important role for transporting industrial goods. Initially innovated as industrial vehicles during the 1930s in America, forklifts gained recognition after World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread worldwide.

Originally started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first lift truck. Throughout the years, TCM forklifts have become a worldwide leader in forklift manufacturing and have built a solid reputation with the trade. TCM began constructing lift truck manufacturing sites outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes various models of industrial forklifts with over 50 years of accumulated technology and expertise, making their products used and recognized all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading business.
